Special Focus: Inequality in Emerging Economies (EEs)

Inequality in Emerging Economies Henceforth collectively referred to as EEs, they total about one fifth of global GDP and close to half the world s population.

Theorist Eric Maskin: Globalization Is Increasing Inequality

Maskin theorizes that while average income has been rising as a result of more trade and global production, so has inequality within countries. Inequality resulting from globalization today is often viewed as existing in two varieties, one less worse than the other.
